1st Student Symposium in Systems Biology

Friday 29th April | 9:30 AM to 1:30 PM | MDC.C AXON 2

Advanced BIMSB PhD Students present their projects and celebrate their approaching graduation

**Keynote:** John Marioni (EMBL-EBI)
*Understanding cell fate decisions in early mammalian development using single-cell transcriptomics*

**Elena Torlai Triglia | Pombo Lab**
The Epigeneticist’s Guide to the Galaxy

**Eleonora Adami | Huebner Lab**
Found in Translation

**Jingyi Hou | Chen Lab**
Reading Between the Lines: Essential Roles of cis-regulatory Context in mRNA Translation

**Stefanie Seelk | Tursun Lab**
How the Loss of a Histone Chaperone influences a Worm’s Life

**Christin Mieth | Huebner Lab**
The Epigenetic Footprint of Sex

Please join us for a networking lunch with the speakers!
