

BioSorter

Angela Comas, Union Biometrica, Belgium

An introduction to high-throughput analyzing and sorting large particle biological samples

September 17, 1:30 pm	Introductory Seminar, afterwards 1st day of running samples provided by local scientists
September 18, 9:00 am	2nd day of running samples provided by local scientists
September 19, 9:00 am	3rd day of running samples provided by local scientists

The Seminar on September 17 will be held in the Max Delbrück House (building 31.1, 3rd floor, seminar room 3016) and is open to everybody. Please note that this room has limited space.

Attending the testing and practical part of the workshop (building 31.1, 4th floor, room 4046) can only be granted to groups that are providing samples. Please contact Baris Tursun for further details.

Host: Baris Tursun (MDC, Berlin, baris.tursun@mdc-berlin.de)
