

BIMSB Student Workshop

Professor Sebastian Kadener

Department of Biological Chemistry
The Hebrew University of Jerusalem

“Genomics of non-coding RNAs”

This two half-day workshop will cover technologies for identifying and determining functions of non-coding RNAs, with special emphasis on miRNAs, lincRNAs and circRNAs. Lectures by Sebastian Kadener will be followed by group discussion of recent (and ancient) papers.

9:30-13:00 Wednesday Sept 16th
 Thursday Sept 17th

Commitment for two days is required

MDC.C, Axon 2, Campus Berlin - Buch

Space is limited to 20 students, so please register
until **Aug 31st** in the [Training Database](#)
