

Every Wednesday, From 09:00 to 10:00 AM

Paul Ehrlich Hörsaal, Charité

Campus Mitte, Virchowweg 4, 10117 Berlin

Systems Biology Lectures in Epigenetics

Date	Speaker	Topics
31 October 2012	Jörn Walter Uds Saarbrücken	Mechanisms of epigenetic gene regulation
14 November 2012	Thomas F. Meyer MPIIB	Genetic variation in bacteria
21 November 2012	Thomas F. Meyer MPIIB	Epigenetics of infected cells
28 November 2012	Achim Leutz MDC	Earmarking epigenetic transcription factor functions
05 December 2012	Rainer Machne HUB	Genetic footprints of chromatin structure and circadian gene regulation
12 December 2012	Ho-Ryun Chung MPIMG	Histone codes and transcription
19 December 2012	Leonie Ringrose IMBA, Vienna	Epigenetics meets mathematics: Towards a quantitative understanding of chromatin biology in vivo
09 January 2013	Wei Chen MDC/BIMSB	Allelic gene expression
16 January 2013	Baris Tursun MDC/BIMSB	Epigenetics in cell fate specification and reprogramming
23 January 2013	Ana Pombo MRC CSC, London	Mechanisms of gene repression by Polycomb in embryonic stem cells
30 January 2013	Ulf Andersson Ørom MPIMG	Epigenetic regulation through long non-coding RNAs
06 February 2013	Nadine Vastenhouw MPICBG	Gene regulation during developmental transitions
13 February 2013	Martin Vingron MPIMG	Network construction for epigenetic marks
