

For further information contact Jennifer Stewart: jennifer.stewart@mdc-berlin.de

Every Wednesday, From 09:30 to 10:30 AM
MDC.C Conference Center, MDC Berlin-Buch
Robert-Rössle-Str. 10, 13125 Berlin

Systems Biology Lectures RNA Biology

Date & Venue	Speaker	Topics
22-04-15 Axon 2	Christian Spahn Charité	Multiparticle cryo-electron microscopy of macromolecular machines: the ribosome as an example
29-04-15 Dendrit 2-3	Gunter Meister University of Regensburg	RNA binding proteins as modulators of coding and noncoding RNA pathways
06-05-15 Axon 2	Eric Westhof IBMC/CNRS Strasbourg	Ribosomal decoding fidelity and tautomerism of nucleic acid bases
13-05-15 Dendrit 2-3	Niels Gehring University of Cologne	Messenger RNA quality control in health and disease
20-05-15 Axon 2	Nikolaus Rajewsky MDC/BIMSB	Regulatory RNAs
27-05-15 Dendrit 2-3	Julien Betune Heidelberg University	mRNA/endomembrane co-trafficking from yeast to mammals
03-06-15 Dendrit 2-3	Cynthia Sharma University of Würzburg	Regulatory RNAs in the pathogenic Epsilonproteobacteria, <i>Helicobacter pylori</i> and <i>Campylobacter jejuni</i>
10-06-15 Dendrit 2-3	Florian Heyd FUB	Alternative splicing in four dimensions: how, where, when and why?
17-06-15 Axon 2	Markus Landthaler MDC/BIMSB	Regulation of gene expression by RNA-binding proteins
24-06-15 Dendrit 2-3	Witek Filipowicz FMI Basel	miRNA repression in mammalian cells: structural insights into the mechanism and a role of miRNAs in development and function of mouse retina
08-07-15 Dendrit 2-3	Ralf-Peter Jansen University of Tübingen	Cooperation of membrane and mRNA transport
15-07-15 Dendrit 2-3	Wei Chen MDC/BIMSB	Transcriptome characterization: past, present and future
