

Every Wednesday, From 09:30 to 10:30 AM
MDC.C Conference Center, Dendrite 2/3
Robert-Rössle-Str. 10, 13125 Berlin

Systems Biology Lectures

Proteins & Proteomics

Date	Speaker	Topics
28 October 2015	Matthias Selbach , MDC	Shotgun proteomics: an introduction
04 November 2015	Jeroen Krijgsveldt , EMBL	Proteome meets genome: dynamics of chromatin composition in embryonic stem cells
11 November 2015	Oliver Daumke , MDC	Structure-function studies in dynamin superfamily proteins
18 November 2015	Knut Reinert , FU Berlin	Bioinformatic Analysis of Proteomic Data using OpenMS and KNIME
25 November 2015	Mathias Dreger , Caprotech	Capture Compound Mass Spectrometry: A Chemoproteomic approach to profile small molecule-protein interactions
02 December 2015	Marcus Bantscheff , Cellzome	Drug action in the context of the proteome
09 December 2015	Ulrich Stelzl , MPI Molecular Genetics	Yeast Two-Hybrid
06 January 2016	Jesper Olsen , CPR Copenhagen	Quantitative Phosphoproteomics to delineate cell signaling pathways
13 January 2016	Phillip Selenko , FMP	NMR
20 January 2016	Michiel Vermeulen , University Nijmegen	Quantitative interaction proteomics for epigenetics
27 January 2016	Erich Wanker , MDC	Neuroproteomics
03 February 2016	Anne-Claude Gavin , EMBL	Protein Metabolite Interactions
10 February 2016	Gunnar Dittmar , MDC	Targeted Proteomics / Proteomics of the Ubiquitine Proteasome System
