

| | |
|------------------------------|---|
| Name | Mir-Farzin Mashreghi |
| Date of birth: | 10.09.1977 |
| Place of birth: | Teheran, Iran |
| Nationality: | German |
| Family status: | In relationship, 3 children (born 2007, 2013 and 2019) |
| Position at the DRFZ: | Group leader "Therapeutic Gene regulation" Scientific Head Regine von Ramin Laboratory for Molecular Rheumatology |

Scientific Career

- Since 2020 **Group Leader** of the joint DRFZ/BIH Center for Regenerative Therapies (B-CRT) "Single-Cell-Laboratory for Advanced Cellular Therapies"
- Since 2018 **Scientific Head** "Next Generation Sequencing", Leader of the Laboratory of Molecular Rheumatology "Regine von Ramin Labor" at the DRFZ.
- Since 2016 **Group Leader** "Therapeutic Gene Regulation", Programme Area III: Regenerative Rheumatology at the DRFZ Berlin.
- 2007 –2016 **Research Associate** at the Cell Biology department (Head: Prof. Dr. Andreas Radbruch) at the DRFZ Berlin.

Education

- 2003 –2007 PhD thesis at the Charité Universitätsmedizin Berlin, Institute of Medical Immunology, Supervisors: Prof. Dr. H.-D. Volk / Prof. Dr. P.-M. Kloetzel; "Functional analysis of the transcription factor STAT3 regulated by the induction of the cytoprotective enzyme heme oxygenase-1", magna cum laude
- 2002 –2003 Diploma thesis at the Charité Universitätsmedizin Berlin, Institute of Medical Immunology, Supervisor, Prof. Dr. H.-D. Volk; "Strategies for the diagnosis of subclinical and clinical acute rejection episodes in renal transplantation"
- 1998 –2003 University studies at the Freie Universität Berlin, Department of Biology, Pharmacy und Chemistry, Field: Biochemistry diploma, Subjects: Biochemistry, Biophysics, Immunology, Biology, Organic Chemistry, Physical Chemistry and Physics. Mark: Excellent

Research stay abroad

- 2006 Jagiellonian University, Kraków/Poland, Department of Medical Biotechnology, Faculty of Biochemistry, Biophysics and Biotechnology Jagiellonian University. Supervisor: Józef Dulak, PhD, DSc, Assoc. Prof. "Isolation of bone marrow derived dendritic cells from HO-1 knockout mice and analysis of their maturation behavior after LPS stimulation"

Boards

- Study Group Coordinator of EFIS-IL-Study Group "Non-coding RNA and epigenetic regulation in immune cells"

Memberships

- Deutsche Gesellschaft für Immunologie (DGFI)
- Frontiers of Immunology, Review Editor

Awards

- 2011 Wolfgang Schulze Award 2011, „Therapeutic use of microRNAs in rheumatology“.

Teaching activities

| | |
|----------------|---|
| 2018- ongoing | Lecturer, Charité-Molecular Medicine |
| 2012 - ongoing | Problem-based-Learning (PBL)-Teacher at the Charité |
| 2011 - 2015 | Max-Hirsch Lecturer at the Charité |
