

We mourn the loss of

Dr. Gisela Rose Marie Krebs

Born February 21, 1931

died March 6th, 2023

After a short illness, the founder of the Gisela Krebs Foundation passed away peacefully. With the foundation's funds, Dr. Krebs enabled innovative scientific projects on gene editing and stem cell research in muscular dystrophies.

We will always honor the memory of Gisela as a courageous, humorous and wise woman.

Prof. Dr. Simone Spuler M.D., Professor of Myology
on behalf of all staff members of the Muscle Research Unit
Charité University Medicine Berlin and Max Delbrück Center
