Technology Platform Seminar Series

Every 4th Wednesday | 12:00-13:00

23.02.2022 Chemical Biology and Screening Platform

Jens von Kries, Edgar Specker, Marc Nazaré and Han Sun

23.03.2022 Pluripotent Stem Cells and Biobank

Sebastian Diecke and Jürgen Janke

27.04.2022 Proteomics and Metabolomics

Philipp Mertins and Stefan Kempa

25.05.2022 Optical Imaging

Andrew Woehler and Anje Sporbert

22.06.2022 Genomics - NGS and Single Cell Technologies

Janine Altmüller, Tatiana Borodina and Thomas Conrad

24.08.2022 Metabolomics and Protein Production & Characterization

Jennifer Kirwan and Anja Schütz

28.09.2022 Transgenics and Animal Phenotyping

Ralf Kühn and Arnd Heuser

26.10.2022 Organoids and 3D Electrically Excitable Cell Networks

Agnieszka Rybak-Wolf and Maria-Patapia Fafeiriou (University of Göttingen)

23.11.2022 Translational Bioinformatics and Omics Data Science

Dieter Beule and Altuna Akalin
