

## Symposium

### “Young Investigators Group Leader Position” on March 27, 2017 at the MDC.C, Axon II

---

- 12:45**                      **Welcome**
- 12:50**                      *Nard Kubben, National Cancer Institute, Bethesda*  
**Molecular Mechanisms of Ageing**
- 13:20**                      *Stephanie Protze, University Health Network, Toronto*  
**Translating Human Heart Development to Novel Biological Pacemaker Therapies**
- 13:50**                      *Anna Mattout, Friedrich Miescher Institute, Basel*  
**Silencing of Heterochromatin in Metazoans. A New Mechanism,  
at a New Level of Regulation**
- 14:20**                      *Sara Sdelci, Research Center for Molecular Medicine, Vienna*  
**The Use of Human Haploid Reporters to Portray the Chemical and  
Genetic Landscape of BRD4**
- 14:50**                      **Coffee break**
- 15:00**                      *Ataman Sendoel, The Rockefeller University, New York*  
**Found in Translation: Reprogramming the Translational Landscape in  
Tumorigenesis**
- 15:30**                      *Kosaku Shinoda, University of California, San Francisco*  
**How Adipocytes Produce Heat: Identification of CK2 Kinase Using Proteomics**
- 16:00**                      *Brian Wong, VIB-KU Leuven Center for Cancer Biology, Leuven*  
**Metabolic Regulation of Lymphatic Development and Lymphangiogenesis**
- 16:30**                      *Kathrin Pieper, Institute for Research in Biomedicine, Bellinzona*  
**A New Mechanism of Immunoglobulin Diversification Generates Broadly Reactive  
Antibodies to *Plasmodium falciparum***
