

SYMPOSIUM

Helmholtz Young Investigators Group Leader Position

- 9:30** **Welcome by Martin Lohse, Scientific Director, MDC**
- 9:35** **Marco Bezzi, Harvard Medical School, Boston, USA**
"Prostate cancer heterogeneity and therapeutic resistance"
- 10:05** **Ilaria Piazza, ETH Zurich, Switzerland**
"How metabolites and proteins handshake: beyond screens and towards mechanisms"
- 10:35** **Klaus Eyer, ESPCI Paris, Paris, France**
"DropMap - Single-cell analysis of functional antibody repertoires and immune responses"
- 11:05** **Helmuth Gehart, Hubrecht Institute, Utrecht, The Netherlands**
"Adult tissue stem cells – a tale of fate and plasticity"
- 11:35** **Break (15 min)**
- 11:50** **Francesca Ronchi, University of Bern, Bern, Switzerland**
"Host-microbiota interactions in brain homeostasis and inflammation"
- 12:20** **Rastislav Horos, EMBL, Heidelberg**
"Regulation of selective autophagy by small non-coding RNA"
- 12:50** **Daniel Seaton, EMBL-EBI, Cambridge, UK**
"In vitro population genetics by single-cell RNA-sequencing of differentiating iPS cells"
